A Changemaker Path

Here is our proposal: a changemaker path that starts with **celebrating** social innovation to continue with **connecting** and **learning** with/ from the most impactful social entrepreneurs in Europe.

Our hypothesis is that personal connection and mutual admiration leads to **collaboration**. And when this happens between the most advanced systemic thinkers in our region we can dream as big as our imagination allows.

Ecosystem Events

Ecosystem Events (EE) are public, independently organized events hosted during the week of the European Changemaker Summit.

EE organizers play a critical role in making sure that the knowledge and experiences coming from around Europe reach local actors. Also, they make ECMS a week long celebration of social innovation, engaging citizens from different sector in the Summit.

Follow this icon in the agenda to see all our Ecosystem Events
